

2ND INTERNATIONAL CONGRESS OF DERMATOPATHOLOGY

“From the microscope to therapeutics®”
Cutaneous aging:
changing the *status quo*

Objective:

The Second International Congress of Dermatopathology, “from the microscope to therapeutics®” is intended to address the subject of cutaneous aging and define its position in the present world.

The definition of disease has changed historically ⁽¹⁾. Some disorders that were considered as disease are no longer so, such as fever which is now considered as a symptom in several different diseases; or as some entities that are actually considered a normal part of the aging process like osteoporosis, arterial hypertension, Alzheimer’s disease, rather than diseases themselves. ⁽²⁾

Disease is considered a phenomenon with definitions in both social and biological contexts. Medically speaking, disease is considered as an anomaly of the structure or function of the body, more than the physical changes derived from it. ⁽³⁾ The social aspect is more difficult to define, as we must consider the definition of health proposed by the WHO, where it is considered as the state of absolute physical, mental and social well-being, and not only the absence of disease. ⁽⁴⁾

Aging can be defined as the intrinsic process per se (primary aging) or as the diseases that occur as a result (secondary aging). For example, in dermatology, photoaging is considered to be the accelerated cutaneous deterioration secondary to the effect of ultraviolet radiation exposure through life and it is also considered to be a condition that leads to different pathological entities, like cancer. ⁽⁵⁾

Considering aging as a disease allows to eliminate the term “natural” in the process and legitimizes the medical efforts to vanish the undesired conditions associated with it. Therefore, further research is needed to slow the process or limit the undesirable effects generated by aging.

**AUGUST
2, 3, AND 4,
2018**

**Palacio de la Escuela de
Medicina de la U.N.A.M.**
Brasil #33, Plaza de Santo Domingo
Centro Histórico, Mexico City

LECTURERS
Marcela Saeb Lima, MD.
María Eugenia Solloa Roncero, MD.
Lucía Achell Nava, MD.
Ingrid Karin López Gehrke, MD.

Justification:

The congress is aimed to teach dermatologists, pathologists, oncologists, oncological surgeons, plastic surgeons, geriatrists, gynecologists, and oral pathologists about the process of aging and its cutaneous consequences.

Dermatopathology is the essential basis of the congress, thus 60% of the curricula will be dedicated to the dermatopathology of aging and the remaining 40% to items related with the clinical manifestations, dermoscopic findings and the available therapeutic modalities to treat cutaneous aging.

After the congress ends the attendee is expected to know and recognize the processes that unleash aging, the association of related diseases and the best therapeutic approach towards them.

MORE INFORMATION AND REGISTRATION
www.msldermatopato.com.mx

Proceedings:

The congress will be divided in several modules: master lectures given by expert national and international professors, *symposiums*, and interactive *symposiums* with breakfast or box lunch provided.

The Master Lecture Modules will be taught by national or international professors that will address adnexal tumors, pigmented melanocytic lesions, soft tissue tumors, carcinomas, inflammatory disorders and photo-aging per se.

Each conference will not be longer than 40 minutes and will be given in a concise and concrete way trying to up-rise the fundamentals of diagnosis, differential diagnosis and therapeutics, sparing some time for questions and answers.

The Symposium Modules will be the following:

- A. Trichology.** This area is a developing niche, so it is of extreme importance that those who have dedicated their time, increase their knowledge in this area of dermatology, sharing with us the most common entities and their management.
- B. Oral Diseases.** It is as important for the dermatologist or physician to be able to establish diagnosis, as it is to be able to use various treatments for different oral diseases. For this reason, we have requested the most experienced group to address inflammatory diseases, tumors and metastatic lesions.
- C. Mycotic Diseases.** The goal of this symposium is to define common, and unusual entities with difficult diagnosis in geriatric patients, interacting in clinical cases, recognizing nail diseases associated or not to mycotic etiology and the long term consequences of systemic and subcutaneous mycosis.
- D. Genital Diseases in Geriatric Patients.** Themes as general care of the skin in the elderly, vulvar pruritus, colposcopy and vaginal cytology, histopathological findings in genital pathology and vulvar revitalization will be addressed. These themes interest not only the dermatologist but also the geriatrists, gynecologists, and medical and surgical oncologists.
- E. Autoevaluation, "Dr. Clemente Alejandro Moreno Collado".** This symposium proposes as a goal to expose the assistant in situ and in distance to the experience of defining entities in pure histopathological cases. It will promote clear and precise histopatological criteria and findings to acknowledge transcendent diagnosis in the geriatric population.
- F. Miscellaneous Topics in Aging: Vaccines, Contact Dermatitis, Pharmacodermias, Acne and Rosacea.** In recent years these topics have been considered of utmost importance in Medicine, and much research is ongoing. Different entities that affect this population will be addressed since they are of interest to physicians.

The **Interactive symposia with lunch box or breakfast** will be the following:

1. Technology devices useful in aging
 - A. Modalities
 - B. Entities
2. Mucosal squamous cell carcinoma
3. Target cell therapy and immunotherapy
4. Enzymes and fibroblasts
5. Basal cell carcinoma of unusual sites and difficult assesment

THIS SYMPOSIA HAS THE PURPOSE OF INVITING TO INTERACT AMONG THE PARTICIPANTS BY EXPOSING CASES, AS WELL AS INTEGRATE THE AUDIENCE, IN SUCH WAY LEARNING WILL BE COMPLETE WITH THE PROBLEM'S PRESENTATION AND THE DIFFERENT WAYS OF DIAGNOSES AND TREATMENTS.

Thursday August 2nd, 2018

8:00 - 11:00

MODULE 1

AUDITORIUM

Definition of aging

Coordinator: Dr. Ingrid López Gehrke

Co-coordinator: Dr. John H. Gaviria Calderón

3 hours

8:00 - 8:40

Anatomic and clinical changes of aging

Dr. Ingrid López Gehrke

8:40 - 9:20

Master Lecture

Dermatopathology of aging

Dr. Ángel Fernández Flores

9:20 - 10:00

Master Lecture

Oxidative Stress and Aging

Dr. John Gaviria Calderón

10:00 - 10:40

Master Lecture

Dermatopathology of rejuvenation

Dr. Ángel Fernández Flores

10:40 - 11:00

Questions and Answers (Q&A)

11:00 - 11:40

Coffee break

11:40 - 12:00

AUDITORIUM

Inauguration

Words by:

DR. JESÚS ANCER RODRÍGUEZ

Secretary of General Health Council

Words by:

DR. GERMAN FAJARDO DOLCI

Director of the Faculty of Medicine
Universidad Nacional Autónoma de México

DR. ROBERTO ARENAS GUZMÁN

President of the Mexican Society of Dermatology

DR. JOSÉ RAFAEL PEÑAVERA HERNÁNDEZ

President of the Mexican Board of Pathologists

DR. FERMÍN JURADO SANTA CRUZ

Former President of the Mexican Board of Dermatology

DR. PEDRO MARIO ESCUDERO DE LOS RÍOS

President of the Mexican Board of Oncology

Organizing Committee

Words by:

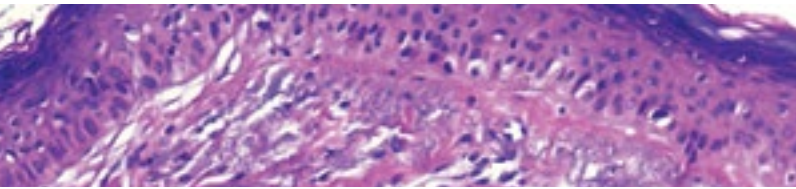

DR. MARCELA SAEB LIMA

DR. MARÍA EUGENIA SOLLOA RONCERO

DR. LUCÍA ACHELL NAVA

DR. INGRID LÓPEZ GEHRKE

Thursday August 2nd, 2018

- 12:00 - 14:00 **Master Lecture Part 1**
AUDITORIUM
Coordinator: Dr. Marcela Saeb Lima
Co-coordinator: Dr. Ángel Fernández Flores
- 12:00 - 12:30 **Unusual cases Part 1**
Dr. Phillip H. McKee
- 12:30 - 13:10 **Pseudolymphomas**
Dr. Mar Llamas Velasco
- 13:10 - 13:50 **Diagnostic pitfalls in cutaneous mesenchymal tumors**
Dr. Thomas Brenn
- Q&A**
- 14:00 - 16:00 **Symposium Lunch I**
EMERITUS PROFESSORS LOUNGE
(SALÓN DE PROFESORES EMÉRITOS)
- Technology Applied to Skin Aging Part 1**
Coordinator: Dr. María Eugenia Solloa Roncero
Co-coordinator: Dr. Miroslava Zolano Orozco
- 14:00 - 14:20 **Pigmentary changes : What's good for the melanocyte?**
Dr. Osvaldo Tomás Martínez Vázquez
- 14:20 - 14:40 **Rhytides: What's good for the fibroblasts?**
Dr. Kristian Eichelmann Herrera
- 14:40 - 15:00 **Slack skin: What improves elastic fibers and collagen?**
Dr. Jorge Lauro Moreno González
- 15:00 - 15:20 **Superficial aging skin changes: What's good to diminish the TEWL and maintain skin conditions healthy?**
Dr. Héctor Leal Silva
- 14:00 - 16:00 **Symposium Lunch II**
PARANINFO
- Mucosal squamous cell carcinoma**
Coordinator: Dr. Ernesto Velazco Manzo
Co-coordinator: Dr. Lucía Achell Nava
1 hour and a half
- Approach to lesions on the lip and vermilion border**
Dr. Ernesto Velazco Manzo
- Squamous cell carcinoma and cancerization field**
Dr. Rodrigo Roldán Marín
- New target cell therapies in squamous cell carcinomas of the mucosa**
Dr. Laura Torrecillas Torres
- The role of radiotherapy as part of the treatment in squamous cell carcinoma**
Dr. Michelle Aline Villavicencio Queijeiro

Discussion Panel

Thursday August 2nd, 2018

- 16:00 - 19:00 **MODULE 2**
AUDITORIUM
Symposium: Genital diseases in geriatric patients
Coordinator: Dr. María del Rocío Ferrusco Ontiveros
Co-coordinator: Dr. María de las Mercedes Hernández Torres
3 hours
- 16:00 - 16:15 **Skin care of the genital region in geriatric patients**
Dr. María del Rocío Ferrusco Ontiveros.
- 16:15 - 16:30 **Scrotal and vulvar pruritus**
Dr. Lucía Achell Nava
- 16:30 - 17:00 **Colposcopic and cytologic findings in the genital area**
Dr. Francisco Javier Hernández Mora
- 17:00 - 17:30 *Coffee break*
- 17:30 - 18:00 **Genital squamous cell carcinoma**
Dr. Mar Llamas Velasco
- 18:00 - 18:30 **Histopathologic findings in vulvar pathology (inflammatory)**
Dr. María de las Mercedes Hernández Torres
- 18:30 - 18:45 **Vulvar revitalization with hyaluronic acid**
Dr. Martha Leticia Gómez Martínez
- 18:45 - 19:05 **Vaginal rejuvenation with laser devices**
Dr. Evgenii Leshunov
- 16:00 - 17:20 **MODULE 3**
DR. GUILLERMO SOBERON (Microscope set-up)
PARANINFO (Discussion)
Autoevaluation "Dr. Clemente Alejandro Moreno Collado"
Coordinator: Dr. Eduwiges Martínez Luna
Co-coordinator: Dr. Daniel Montante Montes de Oca
1 hour and 20 minutes (four minutes per case)
15 cases (microscopes and 15 expositors dermatopathologists and pathologists)
- | | |
|--|----------------------------------|
| Dr. María de las Mercedes Hernández Torres | Dr. Juan Carlos Córdova |
| Dr. Juan Carlos Cuevas González | Dr. Guillermo Ramos Rodríguez |
| Dr. Cecilia Gallegos | Dr. Rodolfo Franco |
| Dr. Marisol Díaz Lozano | Dr. Juana Irma Garza Chapa |
| Dr. Iris Galván Martínez | Dr. Ma. Eugenia Mazzei |
| Dr. Eduwiges Martínez Luna | Dr. Luis Humberto Cruz Contreras |
| Dr. Daniel Montante Montes de Oca | Dr. Gabriel Martínez Burillo |
| | Dr. Braulio Martínez Benitez |
- 17:30 - 19:00 **MODULE 4**
EMERITUS PROFESSORS LOUNGE
(SALÓN DE PROFESORES EMÉRITOS)
Symposium: Aging, what else to consider?
Coordinator: Dr. Francisco Moreno Sánchez
Co-coordinator: Dr. María Graciela Guzmán Perera
1 hour and a half
- 17:30 - 17:50 **Vaccines in geriatric patients**
Dr. Francisco Moreno Sánchez
- 17:50 - 18:20 **Contact dermatitis and pharmacodermias in geriatric patients**
Dr. María Graciela Guzmán Perera
(pharmacodermias)
Dr. María de Lourdes Alonzo Romero-Pareyón
(contact dermatitis)
- 18:20 - 18:35 **Rosacea**
Dr. Vicente Torres Lozada
- 18:35 - 18:50 **Acne**
Dr. Jesse Schwartzberg
- 19:00 **PATIO CENTRAL**
Welcome Cocktail

Friday August 3rd, 2018

- 7:00 - 8:30 *Breakfast*
PARANINFO
Target cell therapies and immunotherapy
Coordinator: Dr. Lucía Achell Nava
Co-coordinator: Dr. Eleazar Omar Macedo Pérez
- 7:00 - 7:10 **Introduction**
Dr. Eleazar Omar Macedo Pérez
- 7:10 - 7:30 **Target therapy in melanoma**
Dr. Jero Rogríguez Cid
- 7:30 - 7:50 **Dermatofibrosarcoma protuberans**
Dr. Eleazar Omar Macedo Pérez
- 7:50 - 8:10 **Immunotherapy in cancerization field**
Dr. Elizabeth Salazar Rojas
- 8:10 - 8:30 **Adverse cutaneous effects of target therapy and immunotherapy**
Dr. Lucía Achell Nava
- 7:00 - 8:30 *Breakfast*
EMERITUS PROFESSORS LOUNGE
(SALÓN DE PROFESORES EMÉRITOS)
Enzymes and fibroblasts: What's New?
Coordinator: Dr. Ingrid López Gehrke
Co-coordinator: Dr. Norma Gabriela Campos Cornejo
- 7:00 - 7:30 **Use of biologic enzymes in Dermatology**
Dr. Ingrid López Gehrke
- 7:30 - 7:50 **Facial indications and uses of topical biologic enzymes**
Dr. Norma Gabriela Campos Cornejo
- 7:50 - 8:10 **Fibroblasts and its uses in the context of current Dermatology**
Dr. Francisco Pérez- Atamoros
- 8:00 - 11:00 **MODULE 5**
AUDITORIUM
Melanocytic lesions and melanoma
Coordinator: Dr. Marcela Saeb Lima
Co-coordinator: Dr. Fernando Cordera González de Cosío
3 hours
- 8:00 - 8:10 **Clinical Diagnosis**
Dr. Stefanie Arroyo Camarena
- 8:10 - 8:25 **Dermoscopic diagnosis (dysplastic nevus and melanoma)**
Dr. Rodrigo Roldán Marín
- 8:25 - 8:35 **Histopathological report**
Dr. Yamile Corredoira
- 8:35 - 8:50 **Genetics in melanoma**
Dr. Santiago March Mifsut
- 8:50 - 9:30 **Staying out of trouble with melanocytic tumours**
Dr. Thomas Brenn
- 9:30 - 10:00 **Pigmented lesions of genitalia**
Dr. Mar Llamas Velasco

Friday August 3rd, 2018

- 10:00 - 10:30 **Surgical treatment of melanoma**
Dr. Fernando Cordera González de Cosío
Dr. Rodrigo Arrangoiz Majul
Dr. David Caba Molina
Dr. Marcela Saeb Lima
- 10:30 - 10:45 **Oncologic treatment of melanoma**
Dr. Jero Rogríguez Cid
- 10:45 - 11:00 **Immunotherapy**
Dr. Nora Sobrevilla Moreno
- 11:00 - 11:45 *Coffee break*
- 11:45 - 13:45 *Master Lecture Part 2*
AUDITORIUM
Coordinator: Dr. Jorge Albores Saavedra
Co-coordinator: Dr. Reynaldo Falcón Escobedo
- 11:45 - 12:25 **Sweat gland carcinomas: debunking myths**
Dr. Thomas Brenn
- 12:25 - 13:05 **Unusual cases Part 2**
Dr. Phillip H McKeel
- 13:05 - 13:25 **Merkel cell carcinoma**
Dr. Jorge Albores Saavedra
- 13:25 - 13:45 **Approach to cutaneous metastasis through immunohistochemistry**
Dr. Reynaldo Falcón Escobedo
- 14:00 - 16:00 *Symposium Lunch III*
EMERITUS PROFESSORS LOUNGE
(SALÓN DE PROFESORES EMÉRITOS)
Technology applied to skin aging Part 2
Coordinator: Dr. María Eugenia Solloa Roncero
Co-coordinator: Dr. Miroslava Zolano Orozco
2 horas
- Clinical cases treated with different modalities:**
1. Lasers
 2. IPLI and PDT
 3. Radiofrequency, and microfocalized ultrasound
 4. Other modalities
- Discussion selected cases**
Dr. María Eugenia Solloa Roncero
Dr. Héctor Leal Silva
Dr. Jorge Lauro Moreno González
Dr. Kristian Eichelmann Herrera
Dr. Osvaldo Tomás Martínez Vázquez
- 14:00 - 16:00 *Symposium Lunch IV*
PARANINFO
Basal cell carcinoma of unusual sites and difficult approach
Coordinator: Dr. Lucía Achell Nava
Co-coordinator: Dr. Amelia Peniche Castellanos
2 hours
Cases will be sent to the table for discussion by coordinators

Friday August 3rd, 2018

16:00 - 18:00

MODULE 6

AUDITORIUM

Symposium: Oral mucosa

Coordinator: Dr. Lilly Esquivel Pedraza
Co-coordinator: Dr. Laura Fernández Cuevas
1 hour and 45 minutes

16:00 - 16:05

Introduction

Dr. Lilly Esquivel Pedraza

16:05 - 16:20

Common benign reactive tumors

Dr. Laura Fernández Cuevas

16:20 - 16:35

Oral cavity lymphomas

Dr. Amparo Hernández Salazar

16:35 - 16:50

Paraneoplastic tumors

Dr. Alba Cicero Casarrubias

16:50 - 17:05

Nutritional deficiencies

Dr. Silvia Méndez Flores

17:05 - 17:20

Oral leukoplakia

Dr. Lilly Esquivel Pedraza

17:20 - 17:35

Oral Cancer

Dr. Velia Ramírez Amador

17:35 - 17:50

Oral metastases

Dr. Gabriela Anaya Saavedra

16:00 - 19:00

MODULE 7

PARANINFO

Module one-on-one with the public

Coordinator: Dr. Marcela Saeb Lima
Co-coordinator: Dr. Rodrigo Roldán Marín

16:00 - 16:20

What is aging? Disease or normal process of life

Dr. Ingrid López Gehrke
DermaDF

16:20 - 16:40

What happens to the skin when a physician takes a biopsy?

Dr. Marcela Saeb Lima
Clinica tumores cutáneos CMABC

16:40 - 17:00

Can we see beyond the clinical eye? Dermoscopy: Whom and what is it for?

Dr. Rodrigo Roldán Marín
Clínica DermatoOncología UNAM

17:00 - 17:20

Phoprotection: Which kind of sunscreen to use and why should we protect from UV radiation?

Dr. Adriana Valencia Herrera Cruz
Pediatric Dermatologist

17:20 - 17:40

What nurtures our skin?

Dr. Santiago March Mifsut

17:40 - 18:00

Technology applied to skin aging

Dr. María Eugenia Solloa Roncero
DermaHouse

18:00 - 18:20

General skin care

Dra. Helena Vidaurri de la Cruz
Pediatric Dermatologist

18:20 - 18:40

Suspicious Lesions: How to detect them?

Dr. Lucía Achell Nava
Dermatologist ISSSTE 20 de noviembre

Saturday August 4th, 2018

8:00 - 9:45

MODULE 8

AUDITORIUM

Module symposium trichology

Coordinator: Dr. Daniel Asz Sigall
Co-coordinator: Dr. Abril Martínez Velasco
1 hour and 45 minutes

8:00 - 8:15

Dermatopathology of hair

Dr. Eduwiges Martínez Luna

8:15 - 8:30

Graying hair and therapeutic options

Dr. Daniel Asz Sigall

8:30 - 8:45

Stem cells, PRP, and other papilla restoring options

Dr. Daniel Asz Sigall

8:45 - 9:00

Pathophysiology of hair aging

Dr. Luis Enrique Sánchez Dueñas

9:00 - 9:15

Senescent alopecia

Dr. Norma E. Vázquez Herrera

9:15 - 9:30

Hair breakage and restructuring options

Dr. Abril Martínez Velasco

9:30 - 9:45

Antioxidants and hair

Dr. Abril Martínez Velasco

9:45 - 11:25

MODULE 9

AUDITORIUM

Module symposium mycosis in aging

Coordinator: Dr. Roberto Arenas Guzmán
Co-coordinator: Dr. Elsa Vázquez del Mercado Moctezuma
1 hour and 40 minutes

9:45 - 10:05

Mycosis in Geriatrics

Dr. Roberto Arenas Guzmán

10:05 - 10:25

Clinical Cases in Geriatrics

Dr. Diana Carolina Vega Sánchez

10:25 - 10:45

Non-mycotic onicopathy in the elderly

Dr. Patricia Chang

10:45 - 11:05

Skin Dermatopathology of the elderly

Dr. Javier Baquera Heredia

11:05 - 11:25

Sequels and long-term consequences of systemic and subcutaneous mycosis

Dr. Elsa Vázquez del Mercado Moctezuma

11:25 - 12:00

Coffee break

12:00 - 13:00

Master Lecture Part 3

AUDITORIUM

Unusual cases Part 3

Dr. Phillip H. McKee

13:00 - 13:30

Closing Ceremony

SCIENTIFIC COMMITTEE

Curriculum Vitae ORGANIZING COMMITTEE

MARCELA SAEB LIMA, MD.

Graduated from Medicine School at La Salle University with honorable mention, studied the specialty of dermatology at the General Hospital “Dr. Manuel Gea González” and the subspecialty of dermatopathology at Harvard University, Boston, Massachusetts, by Dr. Phillip H. McKee’s tutorial. Her work area is developed as a type A specialist in the Pathology Department at the National Institute of Medical Sciences and Nutrition “Salvador Zubirán” (Instituto Nacional de Nutrición Salvador Zubirán). As a specialist in Angeles Lomas Hospital (Hospital Angeles Lomas) and in the ABC Medical Center (Centro Médico ABC). Her experience is mainly focused on melanocytic neoforations, as well as cutaneous tumors, inflammatory and infectious diseases. She is a national, and international lecturer.

MARÍA EUGENIA SOLLOA RONCERO, MD.

Graduated from Medicine School at La Salle University, she studied dermatology in the military School of Health graduates, obtaining honorable mention and the best general average of her class. Attended a specialized training in dermatology at the “Graduate education specialty Training-GEST” program, at the University of Miami. Her work area is developed as dermatologist in the ABC Medical Center (Centro Médico ABC).

LUCÍA ACHELL NAVA, MD.

Graduated from Medicine School at La Salle University, studied dermatology at the National Medical Center 20 November ISSSTE (Centro Médico Nacional 20 de Noviembre) and the subspecialty of Dermato-oncology and skin surgery at General Hospital of Mexico (Hospital General de México). She works as a specialist at the dermatology service in the National Medical Center 20 November and is adjunct professor for Dermatology Postgraduates (UNAM). Her professional practice is at Mocol Angeles Hospital (Hospital Ángeles Mocol).

INGRID LÓPEZ GEHRKE, MD.

Graduated from Medicine School of University of Veracruz, attended the specialty of dermatology at the General Hospital of Mexico (Hospital General de México) and the subspecialty of Dermato-oncology at the General Hospital of México. She works as a high specialty dermatologist at DermaDF clinic.
